

NAPNES

The National Association for Practical Nurse Education and Service, Inc.

The Introduction of Our Complete NAPNES Mission Statements – WITH Itemized Descriptions:

NAPNES Mission is to - Advance the Profession of Practical Nursing through a Comprehensive National Certification in Advanced Practice Practical Nursing for PN Practitioners requiring Advanced Education of Practical Nursing beyond the Graduation Level of PN and Licensure.

THE ANA and ANCC DO NOT REPRESENT THE PROFESSION OF PRACTICAL NURSING. They are singularly and solely providing all of their assets and resources to ONLY the advancement and benefit of the Registered Nurse – ONLY...

ANCC is the world's largest and most prestigious (**REGISTERED**) nurse credentialing organization, and a subsidiary of the American Nurses Association (ANA).

The American Nurses Credentialing Center (ANCC), a subsidiary of the American (**REGISTERED**) Nurses Association (ANA), provides individuals and organizations throughout the (**REGISTERED**) nursing profession with the resources they (**REGISTERED**) need to achieve (**REGISTERED NURSE**) practice excellence.

Be Part of the Future of Nursing – They mean REGISTERED NURSING

Facts About the Consensus Model for APRN Regulation from the ANCC.

The American Nurses Credentialing Center (ANCC) is an active participant in the development and launch of the Consensus Model for APRN Regulation: Licensure, Accreditation, Certification, and Education **for REGISTERED NURSES**. This transformative model will provide needed uniformity for the **advanced practice registered nurse** (APRN) profession.

NAPNES Supports the development and implementation of the The Advanced Practice Practical Nurse Certification (APPN)

The National Association of Practical Nurses Education and Services supports the transformative changes to the future of advanced practice Practical Nursing

as a result of the educational demand from the Base Knowledge Level for: Accreditation, Certification, and Education. We will provide up-to-date certification information throughout the implementation of this modernized education certification process.

This Certification will come with future branching Field and Knowledge Certifications.

Why develop something like this initiative:

From the ANCC Web Site:

Q. What is the value of certification? NAPNES holds this as TRUE – also, BUT FOR BOTH NURSING LICENSED PROFESSIONS

A. Certification protects the public by enabling anyone to identify competent people more readily. Simultaneously it aids the profession (**Both PN and RN**) by encouraging and recognizing professional achievement (**for Both PN and RN**). Certification also recognizes specialization, enhances professionalism and, in some cases, serves as a criterion for financial reimbursement (**for Both PN and RN**). It may also foster an enlarged role within the employment setting (**for Both PN and RN**). Because certification of (**for Both PN and RN**) nursing practice signifies attainment of specific criteria and knowledge, skills, and abilities in a specific specialty field, certified nurses (**for Both PN and RN**) comprise a minority of the professional nurse population. **NAPNES will work to Advance Educate through Certifications and Standardized Curriculum for a majority of the Practical Nursing Profession.**

You (The Practical Nurse) will have to become active – to keep your job and profession.

**Advance Your Profession of Practical Nurse –
Don't let them STOP you with lower education –
Join NAPNES and BECOME PART of THE VOICE –
THE VOICE THAT WILL GET YOU:**

Advanced Education – Job Security – Acute Care Positions – and the ability to WORK where and how WE Build the Scope of Practice in all of Health Care for Practical Nurses and Allied Health Professionals...
